

Curing/ Ageing/ Drying Ovens Specifications

Temperature range	Ambient+10°C to 200°C, 300°C
Inner construction	Stainless steel 304/ GI
Exterior construction	Powder coated MS sheet/ SS (if needed)
Air circulation	Motor driven blower unit
Heater	Tubular Electric heaters
Insulation	High class insulation
Temperature controller	PID Temperature controller
Electrical Control	Load indicator/ Circuit Breaker/ Heating Control/ Thyristorized control (if specified)/ Timer
Door	Insulated door with sturdy latch/ lock
Trays	Wire mesh cable trays (if specified)
Optional accessories	Stainless steel exterior Trolley with racks PLC based HMI controller Fresh Air inlet Zoning for better heat control
Power supply	220/415 volts 50Hz
