Temperature range	Ambient+10°C to 200°C, 300°C
Inner construction	Stainless steel 304/ GI (as per specification)
Exterior construction	Powder coated MS sheet/ SS (if needed)
Air circulation (Optional)	Motor driven blower unit
Heater	Infrared Heater
Insulation	High class insulation
Temperature controller	PID Temperature controller
Electrical Control	Load indicator/ Circuit Breaker/ Heating Control/ Thyristorized control (if specified)/ Timer
Door	Insulated door with sturdy latch/ lock
Trays	Wire mesh cable trays (if specified)
Optional accessories	Stainless steel exterior Trolley with racks Stand. PLC based HMI controller Fresh Air inlet Zoning for better heat control
Power supply	220/415 volts 50Hz
